Re: Cedar River Greenway – West Side Infrastructure Removal
Funding Verification

Dear I-JOBS Board Members:

This letter is to provide verification on funding and address potential duplication of benefits issues. There is currently no other funding available for the removal of infrastructure in the proposed greenway. The greenway is part of the City's overall flood management strategy and City Council has clearly indicated support for the greenway. If I-JOBS funding is secured, City Council will provide approved budget indicating the necessary matches and most likely pursue other funding options.

Since there is no other funding currently in the project, duplication of benefits should not be an issue. If other Federal funding is pursued, duplication of benefits will be reviewed by appropriate program staff.

If you have any questions regarding this project (subject), please feel free to contact our office.

Sincerely,

THE CITY OF CEDAR RAPIDS PUBLIC WORKS DEPARTMENT
